

STUDENT ORGANIZATIONS

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time will mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings will not interfere with the orderly conduct of the education program or other school district operations. It is within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program will have priority over the activities of another organization.

Curriculum-Related Organizations

It will also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees are assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated, noncurriculum-related organizations are provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of noncurriculum-related groups. Such attendance is strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Employees will be assigned to monitor approved meetings. Employees will not participate in the meeting or assist in planning, criticizing, or encouraging attendance. Only students may be involved in and attend the noncurriculum group's meetings.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT ORGANIZATIONS

NOTE: This policy reflects the protection given nonschool-sponsored student groups in the federal Equal Access Act. Option I should be used by school districts that have noncurricular, school-sponsored organizations.

Option II should be used by school districts that do not have noncurricular, school-sponsored organizations.

STUDENT ORGANIZATIONS

Extracurricular activities and student groups are related to the curriculum of the secondary schools in the school district. These secondary school curriculum-related student organizations may use the school facilities for meetings and other purposes before, after, and during the instructional school day.

It is the responsibility of the building principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. The administrative regulations will include, but not be limited to, stating the process for establishing a curriculum-related student group, assigning a faculty advisor and obtaining board approval for each student group. The administrative rules will also include the purpose of each group and its relationship to the curriculum.
